PROFILE

Digital & ERP Leader Driving Impactful Transformation

Progressive digital and ERP leader with 30+ years of experience delivering transformation and business change across global organizations. Known for converting complex challenges into scalable, sustainable successes in public services, defense, manufacturing, and retail.

Expertise includes digital transformation, enterprise applications, project/program/portfolio management, bid processes, and business process optimization—always with a strong focus on measurable outcomes and strategic alignment.

LEADERSHIP & COLLABORATION

Recognized for leading high-performing teams through trust, clarity, and collaboration. Certified by IPMA and established as a Lean Champion, with deep experience in PRINCE2, PPS, PROPS, and other leading methodologies.

A key strength lies in adapting frameworks to fit each organization's culture, ensuring that methods support people and purpose rather than restrict them.

VISIONARY, TARGET-DRIVEN, AND EXECUTION-FOCUSED

Colleagues consistently describe a communicative and solution-oriented mindset paired with a strong delivery focus. Thrives in environments where strategic thinking meets hands-on execution, guiding organizations through complex digital transformations while maintaining alignment with business values and long-term goals.

Dedicated to accelerating digital transformation journeys, strengthening operational foundations, and ensuring successful execution of high-impact initiatives.
